Folding Pocket Thermometer

- **±0.3°C accuracy**
- **CAL CHECK®**
- **Stainless steel folding probe with penetration tip**
- **Enables angled measurement**
- **Ergonomic**
- **Auto shut-off**

The folding Checktemp®4 provides practical temperature measurement for the food service industry.

Special attention was given to the ergonomic form of Checktemp®4. This thermometer fits comfortably and securely in your hand. The LCD on the side of the handle is easy to see and read. The fast responding, fold-away probe is made of high quality, stainless steel and can penetrate semi-frozen and semi-solid foods like meats, ice cream and cheeses. When you are finished using your Checktemp®4, wipe the probe clean and fold it away. Checktemp®4 automatically turns OFF so you can safely carry it in your pocket.

CAL CHECK®

As you unfold the stainless steel probe, the Checktemp® 4 automatically turns ON and immediately performs a calibration test. This unique HANNA feature, CAL CHECK®, provides the security of knowing you have accurate measurements. CAL CHECK® also lets you know if your battery level is low or if your meter requires recalibration.

Turns on and off by opening and closing the probe
